

Social Communication

A child's social communication skills are important for them to have successful interactions.

Does your child:

- *Make eye contact
- *Respond to others
- *Try to get your attention
- *Look at things you point to
- *Imitate social games
such as "peek a boo"
- *Point to things of interest
- *Take turns in play
- *Enjoy playing with
others

Please contact a Speech-Language Pathologist if you have concerns regarding your Child's social communication skills.
